

A company who is interested in settling its business at Coimbra iParque can start by fulfilling out the application form available at this portal (at “The Park” menu). It will then receive some more information about the project and the suggestion for a meeting with iParque’s governance members. If the company is still interested in joining the project after that meeting and after a visit to the park, it will be asked to send a briefing with its business plan and its intentions for iParque. That document will be evaluated by the Board of Directors and, if it complies with all the necessary conditions to be one of iParque’s companies, the application will be accepted.
